

## Crew and other rates in Korea

The amounts listed below have not been disclosed by the union or by any company, but were aggregated based on the data collected by the Korea Film Commissions & Industry Network(KFCIN) and the Seoul Film Commission(SFC). It is recommended that overseas production teams use it for reference only.

Film crew labor costs are calculated according to day rates based on the expected average hourly wage for 2022 in a 12-hour work day (8-hour day + 4 hours of overtime). Hourly and day rates are pre-taxed. They can vary depending on the experience of the staff and the difficulty of the production.

<u>Production Staff/Position</u>	<u>Hourly Rate</u>	<u>Day Rate</u>
※ Assistants for all Departments/PA	KRW 9,160	KRW 128,240
